TODAY Surprise + departure

Good to know.

Refundable deposit

A fully refundable deposit holds your spot — and if the departure doesn't reach its minimum of six, you're refunded in full.

Weather-swap promise

If a resort closes for weather, we move — a guaranteed alternative, from hot springs to a private asado. The trip never stalls.

No-surprise pricing

One clear price, nothing hidden. The call is free, with no deposit to talk and no obligation to book.

How do I reserve a spot?

A deposit secures your place, with the balance due before departure. We walk you through the full payment schedule and cancellation terms on your booking call — no surprises.

What group size can I expect?

Small by design. Departures run with six to ten travellers, so the experience stays personal and the connections real.

Do I need travel insurance?

Yes — it's mandatory for every traveller and must include medical and sports cover for the mountain activities.

Who is this trip for?

Travellers who want depth over tourism: people who value food, nature, design and genuine connection more than crowded resorts.

Can I book a private trip?

Absolutely. We can tailor the same curated experience for your own crew, a couple, or a company, on your own dates.

Why DoLocal instead of a regular tour company?

Because we're Chilean, born and raised, and we host every trip ourselves — you experience Chile through the people and stories that make it unique.
